

MIROTONE

Leading the way in coating systems since 1938

MIROWAX 738

Data Sheet

Date of Issue: 29/4/02
Document Ref: D-1012
Product Code: 1012-002

DESCRIPTION:

A natural wax polish designed to produce a low gloss lustre on teak, or where the natural look of speciality exotic timbers is to be enhanced. MIROWAX 738 is silicone free and may be used where subsequent lacquer finishes may be applied. MIROWAX 738 is non toxic and may be used on children's furniture and toys.

TYPICAL APPLICATIONS:

Children's Toys	Trophy Bases
Furniture Reviver	Carved Ornaments
Turned goblets and Bowls	Nursery Furniture

TECHNICAL DATA:

Colour: Neutral coloured paste.
Thinner: Mineral Turps.
Application: Wipe - Ready for use.
Wipe - Thin 1:1 by volume with Mineral Turps.
Spray - Thin 1:2 by volume with Mineral Turps
Shelf Life: 36 months in sealed containers stored below 35°C.
Packaging: 750 Grm, 3Kg.

APPLICATION SYSTEMS:

Method A: Apply straight from the can on a soft rag as a final polish or furniture reviver.
Method B: 1) Apply any Mirotone clear Timber Coating as a seal coat in accordance to appropriate data sheet. Allow to dry as recommended.
2) Impregnate fine steelwool (00 or 000 grade) with MIROWAX 738 (application may be easier if diluted 1:1 with Mineral Turps).
3) Rub in the direction of the grain to a smooth lustre finish.
4) Remove excess with a clean soft, lint free cloth.
Method C: 1) Apply any Mirotone Clear Timber Coating as a seal coat. Allow to dry.
Lightly denib the surface with 400 grit Fre Cut sandpaper.
2) Dilute 1 part MIROWAX 738 with 2-3 parts of Mineral Turps and spray a light coat of wax all over substrate.
3) Remove excess with a clean soft lint free cloth.

MIROWAX 738

In general, Mirotone timber products are ideal for use on internal timber surfaces such as banisters, timber wall and ceiling paneling, architraves and skirting boards as well as furniture.

For the most suitable product for your particular application please consult your Mirotone Representative.

This Data Sheet is based on information in Mirotone's possession at the 'Date of Issue' above. Later experience may lead to amendments. Users should check with Mirotone to ensure that this Data Sheet is still current.

The information contained in this Data Sheet is based on data appraised in our own Laboratories and on our own research, and that of others whose work we believe is reliable. Due to possible differences between controlled laboratory and test conditions and methods, and actual application conditions and methods, coupled with possible differences in interpretation of results, the user of this product must satisfy himself that the end result obtainable under his particular application conditions meets his requirements. Special attention is directed to the problem of chemical compatibility, as Mirotone can control only the quality and formulation of its own materials. It has no control over quality, formulation or consistency of other than Mirotone's products or the substrate to which its product is applied. Therefore Mirotone supplies its products only on condition that the consumer himself is satisfied as to the performance of the product in meeting his particular requirements.
