

TreadGrip Overlay and Nosing

TreadGrip Nosing PRODUCT DESCRIPTION

TreadGrip Nosing is a slip-resistant stair nosing offering superior traction even in wet or oily conditions.

TreadGrip Nosing measures 70mm x 30mm and is 4mm thick with a tapered leading edge.

3.0m lengths are available from stock which can be cut to your exact requirements.

TreadGrip Nosing is available from stock in Yellow.

TreadGrip Overlay PRODUCT DESCRIPTION

TreadGrip Overlay is a plate that can be fitted over the top of existing internal and external stairs/steps. They form part of our safety products range. The product is manufactured from a high quality polyester resin that is not only extremely hard wearing, but also corrosion, chemical and fire resistant.

TreadGrip Overlay is 4mm thick and has a coarse aggregate finish making the step anti-slip, therefore reducing slips and falls in the work place. TreadGrip Overlay can be easily cleaned using usual cleaning agents.

TreadGrip Overlay is black with a yellow nosing for greater contrast and visibility. The maximum tread size is 3.0m x 300mm. Cutting to size is free of charge.

TreadGrip Nosing and Overlay can be used in conjunction with Flat Plate to create non slip landings. Flat plate stocked in 2.0m x 1.0m in black/yellow. Other colours available on request.
